MEMORANDUM FOR: D/DCI/IC

SUBJECT: Selecting Intelligence Items for the DCI
and the Vice President

REFERENCE: [redacted] Memo to D/DCI/IC
of 9 July 74, Same Subject (attached)

1. PRD is prepared to select good items of finished intelligence produced by USIB agencies (other than CIA) and to pass these on to the DCI, through [redacted] and to the Vice President, through Dave Peterson.

2. I suggest that we indicate to you and to AD/DCI/IC precisely what we are forwarding (providing you with copies, if appropriate), but I urge you not to take on the burden of clearing each item in advance.

3. Guidance I have received from [redacted] suggests that neither the DCI nor the Vice President is anxious to receive much additional material--only that which is unusually important or interesting or, perhaps, controversial. So I would not expect a large flow of items, but we will carefully review the "take" for possibilities.

4. I will assume that these procedures are o.k. unless I hear to the contrary.
